### **How was AIG chosen and declared a Superbrand?**

- Superbrands commissioned independent research to identify Israel's strongest brands, as voted for by marketing experts, business professionals and thousands of Israeli consumers;
- Using external researchers, Superbrands formed a list of 2,300 brands operating in Israel. The list consisted of local and international brands across all product categories;
- An independent panel of judges, led by Professor Jacob Hornik ranked the brands and selected the finalists. Prof. Hornik is the former Head of the Department of Management at Tel Aviv University, and an authority in the field of marketing research and survey methodology; and
- A total of 770 brands were shortlisted and shared with the Consumer Research team of Israel's MarketWatch Institute for Market and Public Opinion Surveys, where consumers ultimately chose the Superbrands of Israel.
